Gas Test Atmospheres

Course Code ATM012

AIM OF THE COURSE / TARGET GROUP

This course provides participants the required skills and knowledge to enable them to safely carry out gas testing of an atmosphere prior to entering a specific area or workspace. Testing involves the use of electronic test apparatus. The competency requires participants to interpret readings and take actions based on the interpretation. This course is suitable for anyone who requires to gas test the atmospheric content of an area.

DURATION

6 hours *Please note: The course may be completed within a shorter or longer time frame depending on the experience of those in attendance*

COURSE CONTENT

The program addresses the following:

- Preparation for gas testing
- Identifying hazards from possible atmosphere contaminants
- Testing gas using testing equipment
- Interpreting gas readings and monitor as required
- Maintaining gas testing equipment and records
- Inspection and fault find gas testing equipment

ASSESSMENT METHOD

Knowledge based questionnaires and practical demonstration
