

Manoeuvre and Test Plant and Equipment

OPERATION CERTIFICATION

Course Code ATM049

AIM OF THE COURSE / TARGET GROUP

This program provides information and guided practice that will equip plant operators, trades assistance and mechanical tradespersons with the skills necessary to demonstrate competence to the minimum national standards (**NOHSC7019**) so that they can, in a safe manner, manoeuvre and test equipment that has been identified as faulty or is under repair.

The course is aligned to the nationally recognized unit **RIISAM301E Test operational functions of vehicles and equipment** which specifies the outcomes required including planning and preparation for work, the conduct of operational checks, start up, after start and shut down procedures, the safe movement of machines to the test area, and a range of basic operations that prove the functionality of operating systems of a range of machines.

DURATION

8 hrs

Please note: The course may be completed within a shorter or longer time frame depending on the experience of the candidate and the range of equipment for which training is required.

Important note

COURSE CONTENT

The program addresses the following:

- Planning and preparing for operations
- Pre- and post operational checks
- Start up and shut down procedures
- Controls for operating
- Manoeuvring safeguards
- Basic operating techniques and testing methods

Assessment only service is also available for experienced operators for initial certificate issue and VoC's

ASSESSMENT METHOD

Knowledge based questionnaires and practical demonstration

PRE-REQUISITE FOR THIS PROGRAM

Must have basic English literacy skills

If required by the employer or by the site management, or if required to drive the machine(s) on a gazetted road, the candidate may require a Heavy Rigid (HR) Motor Vehicle Drivers License.

ACADEMIC AWARD AND RECOGNITION

Upon successful completion participants will be issued with the following Statement of Attainment which will be recognised nationally:

- RIISAM301E Test operational functions of vehicles and equipment

WHERE IS THE ASSESSMENT CONDUCTED?

This training is conducted in the workplace for corporate clients. In order to conduct this training on your worksite you will need to provide the following:

- A range of safe, maintained, mobile equipment which may include front end loader, skid steer loader, excavator, dozer, telescopic materials handler, grader, roller, truck, water cart and others.
- A safe operating area

MORNING TEA AND LUNCH

As this course is not delivered at the Safety Training Centre participants are required to provide their own refreshments.
