# Telescopic Materials Handler

## OPERATOR CERTIFICATION

### AIM OF THE COURSE

The telescopic materials handler operator certification program provides information and guided practice that will equip experienced operators with the skills necessary to demonstrate competence to the minimum national certification standards (**NOHSC7019**) and to lay the foundation skills of new operators so that they can, in a safe manner, continue to improve their skills and proficiency whilst operating the machine.

The course is aligned to the nationally recognized unit **RIIHAN309A Conduct telescopic materials handler operations** which specifies the outcomes required including planning and preparation for work, the conduct of operational checks, the safe and effective operation of the telescopic materials handler for a range of mandatory tasks, the fitting, use and removal of attachments and operator maintenance activities.

Please Note: A High Risk License for non-slewing crane (CN) is required if the Telehandler is used with a jib with a lifting capacity in excess of 3 tonnes.

### COURSE CONTENT

The program addresses the following:

- Planning and preparing for operations
- Pre- and post operational checks
- Shut down procedures
- Basic operating techniques
- Use of attachments
- Operator maintenance

Assessment only service is also available for experienced operators for initial certificate issue and VoC's

### DURATION

2 days

### PREREQUISITES

Nil

### ACADEMIC AWARD AND RECOGNITION

Upon successful completion participants will be issued with a Statement of Attainment which will be recognised nationally.

### WHAT TO WEAR

All course participants are required to wear appropriate work attire.

### WHERE IS THE TRAINING CONDUCTED?

This course is conducted in the workplace for corporate clients. In order to conduct this training and assessing on your worksite you will need to provide the following:

- A safe maintained Telescopic Materials Handler
- A training room to accommodate for up to 4 people
- A safe operating area
