Hydraulic Excavator

OPERATOR CERTIFICATION

AIM OF THE COURSE

The excavator operator certification program provides information and guided practice that will equip experienced operators with the skills necessary to demonstrate competence to the minimum national certification standards (*NOHSC7019*) and to lay the foundation skills of new operators so that they can, in a safe manner, continue to improve their skills and proficiency whilst operating the machine.

The course is aligned to the nationally recognized units *RIIMPO301A Conduct hydraulic excavator operations* and *RIIMPO320A Conduct civil construction excavator operations* which specifies the outcomes required including planning and preparation for work, the conduct of operational checks, the safe and effective operation of the excavator for a range of mandatory and optional operational tasks and operator maintenance activities.

Please note: Training in the theoretic and practical aspects of lifting and slinging loads is also available.

COURSE CONTENT

The program addresses the following:

- Planning and preparing for operations
- Pre- and post operational checks
- Shut down procedures
- Basic operating techniques
- Using the excavator to lift loads
- Use of rock breakers (Optional)
- Operator maintenance

Assessment only service is also available for experienced operators for initial certificate issue and VoC's

DURATION

3 days

PREREQUISITES

Nil

ACADEMIC AWARD AND RECOGNITION

Upon successful completion participants will be issued with a Statement of Attainment which will be recognised nationally.
