

Manoeuvre and Test Equipment

OPERATOR CERTIFICATION

AIM OF THE COURSE

This program provides information and guided practice that will equip plant operators, trades assistance and mechanical tradespersons with the skills necessary to demonstrate competence to the minimum national standards (*NOHSC7019*) so that they can, in a safe manner, manoeuvre and test equipment that has been identified as faulty or is under repair. The manoeuvring and testing predominantly takes place on site at the point of breakdown and requires the operation of the machines primary controls for the purpose of troubleshooting and/or to confirm that repairs have been effective.

The course is aligned to the nationally recognized unit *RIISAM301A Test operational functions of vehicles and equipment* which specifies the outcomes required including planning and preparation for work, the conduct of operational checks, start up, after start and shut down procedures, the safe movement of machines to the test area, and a range of basic operations that prove the functionality of operating systems of a range of machines.

COURSE CONTENT

The program addresses the following:

- Planning and preparing for operations
- Pre- and post operational checks
- Start up and shut down procedures
- Controls for operating
- Manoeuvring safeguards
- Basic operating techniques and testing methods

Assessment only service is also available for experienced operators for initial certificate issue and VoC's

DURATION

8 hrs

PREREQUISITES

Nil

ACADEMIC AWARD AND RECOGNITION

Upon successful completion participants will be issued with a Statement of Attainment which will be recognised nationally.

WHAT TO WEAR
