Gas Test Atmospheres & Confined Space Entry

Course Code ATM012 & ATM013

AIM OF THE COURSE / TARGET GROUP

This course provides participants with the required skills and knowledge to enable them to safely enter and work in areas designated as a confined space and enable them to safely carry out gas testing of an atmosphere prior to entering a specific area or workspace. The course provides a blend of meaningful theoretical instruction with practical training based on simulated workplace situations. This course is suitable for anyone required to work in a confined space and performing gas testing.

DURATION

1 day *Please note: The course may be completed within a shorter or longer time frame depending on the experience of those in attendance*

COURSE CONTENT

This course is based on the requirements outlined in the Regulations, Codes of Practice and Standards applicable to any person entering a confined space and gas testing, and includes:

- Legislative requirements for confined space entry
- Identification of hazards, and assessing and addressing risks
- Confined Space Entry risk assessment
- Implementation of control measures as determined by the risk assessment process
- Confined space entry permits
- Roles and responsibilities of stand-by persons
- Emergency response procedures
- Testing gas using testing equipment
- Interpreting gas readings and monitor as required
- Maintaining gas testing equipment and records
- Inspection and fault find gas testing equipment
