

Telescopic Materials Handler Operator

TRAINING AND ASSESSMENT

Course Code ATM041

AIM OF THE COURSE / TARGET GROUP

The Telescopic Materials Handler Operator certification program provides information and guided practice that will equip experienced operators with the skills necessary to demonstrate competence to the minimum national certification standards (**NOHSC7019**) and to lay the foundation skills of new operators so that they can, in a safe manner, continue to improve their skills and proficiency whilst operating the machine.

The course is aligned to the nationally recognised unit **RIIHAN309F Conduct telescopic materials handler operations**, which specifies the outcomes required including planning and preparation for work, the conduct of operational checks, the safe and effective operation of the machine for a range of mandatory tasks, the fitting, use and removal of attachments and operator maintenance activities.

DURATION

2 days *Please note: This is the nominal time anticipated to bring a new operator to the minimum national NOHSC7019 standard.*

COURSE CONTENT

The program addresses the following:

- Planning and preparing for operations
- Pre- and post-operational checks
- Shut down procedures
- Basic operating techniques
- Use of attachments
- Operator maintenance

Assessment only service is also available for experienced operators for initial certificate issue and VoC's

ASSESSMENT METHOD

Knowledge based questionnaires and practical demonstration

PRE-REQUISITE FOR THIS PROGRAM

Must have basic English literacy skills

If required by the employer or by the site management, or if required to drive the machine on a gazetted road, the candidate may require a Heavy Rigid (HR) Motor Vehicle Drivers License

ACADEMIC AWARD AND RECOGNITION

Upon successful completion participants will be issued with certification for either of the following depending on the level of experience:

- NOHSC 7019 Certificate of Competence
- RIIHAN309F Conduct telescopic materials handler operations
